SUMMARY

As a Frontend Developer, I am thrilled to start my career with a talented and collaborative team where I can leverage my knowledge and skills while continually expanding my career. my horizons. I am eager to immerse myself in a working environment. dynamic that fosters growth and development. By working in collaboration with experienced professionals, I am confident of to be able to make valuable contributions and that it is for continuous learning and professional growth. This proactive attitude towards learning can inspire others team members to constantly look for ways to improve and grow. In addition, my full-time availability ensures that I will be there when the company needs me.

EXPERIENCE

Monthly Expense Manager

Freelancer

2023

Remote

Web application for the management of personal expenses.

- This project uses React, Vite, Tailwind CSS, and LocalStorage, demonstrating my ability to build applications that manage and persist data in the user's browser.
- I designed and implemented an effective solution for the tracking and monitoring of the management of personal expenses.
- I used LocalStorage to store data persistently. improving the usability UI without the need for an external database.
- I implemented a clear and friendly user interface that facilitates the visualization and management of expenses.

STRENGTHS

A Troubleshooting

We develop innovative solutions that constantly help to achieve expected result.

* Collaboration

I worked closely with multifunctional equipment to deliver projects in a timely manner.

∅ Adaptability

Successfully adapted to changing project requirements, ensuring seamless integration of new functionality.

SKILLS

HTML5

CSS

Javascript

Node

MySQL

Next.js

Typescript

Astro Build

Tailwind CSS

SASS

GitHub

Vite

LANGUAGES

Spanish

Level: Native

English

Level: A2

Aspiration: Cambridge B1 Certificate

EXPERIENCE

Music Festival Web

Freelance

📅 2022

📍 Remote

Web site for a music festival, using modern technologies of web development.

- I use HTML, CSS3, JavaScript and Tailwind CSS, which demonstrates my ability to build aesthetically pleasing and functional UIs.
- I implemented a responsive design that adapts to different devices and screen sizes.
- I used Tailwind CSS for agile development and efficient style customization.
- I programmed interactivities in the site using pure JavaScript, improving the user experience.
